

VEHICLE ASSAULT PLATFORMS & ELEVATED TACTICAL SYSTEMS

Official Representative

Infinite Security Solutions (ISS), is a leading Business Risk Management and Security Consultancy which has built up a strong and close relationship with a number of Technical Partners so as to provide our clients with a comprehensive range of appropriate, "fit-for-purpose" equipment and systems in order to deliver effective and customised security solutions to meet their needs and objectives.

One of our Specialist areas is that of Vehicle Assault Platforms & Elevated Tactical Systems.

These Vehicle Mounted Systems provide access to multi-storey buildings, ships-at-dock, aircraft, sniper positioning, perimeter breaching, elevated observation, unmatched bus assault capabilities and many more applications.

In addition, they also provide a greater degree of safety than traditional ladders and grappling hooks resulting in fewer operator injuries.

These systems are used by the most elite tactical units in the world and are the only ramp system on the planet to have proven itself in a combat theatre, having spent 4 years in Iraq employed by US and Iraqi Special Forces.

Multi-Level structures can present significant obstacles during special operations missions. This makes these Vehicle Assault Platforms a valuable asset.
