

ISPS: COMPANY SECURITY OFFICER (CSO)

The Company Security Officer's position can be multifaceted and often security may not be their primary function. A Company Security Officer is designated under the ISPS Code to perform duties and responsibilities with respect to the security of a Ship, for ensuring the development, implementation, maintenance and updating of a Ship Security Plan and for liaising with Ship Security Officers (SSOs) and with Port Facility Security Officers (PFSOs).

Infinite Security Solutions (ISS), with its extensive security knowledge and understanding of the ISPS Code, can work in a supporting role to assist CSOs in all aspects of ISPS compliance. ISS's vast experience can help CSOs expedite progress through the rigorous requirements of the ISPS Code including the development, implementation and maintenance phases (including training, drills and exercises).

ISS can assist with:

- Detailed Risk Assessments
- Collating intelligence information
- Translating the intelligence information
- Sourcing support as and when required
- Crew Training
- Crew Drills
- Crew Exercises
- Auditing the Vessel
- Reviewing and updating the SSA /SSP
