

BODY ARMOUR/ FRAGMENTATION JACKETS

Official Representative

Infinite Security Solutions (ISS) is a Supplier / Representative for various manufactures of Body Armour and is capable of supplying a full range of Body Armour – Covert, Police, Military, EOD, Male/Female, with Plates or without Plates – to fully satisfy the needs of the Client.

Covert Armour

Generally designed to be worn under clothing. Lower level of protection, mainly against handguns.

Police Issue

Typically modular, with a wide range of pouches and colours available. Can be upgraded with plates to withstand high velocity rifles.

Military Issue

Typically modular, with a wide range of pouches available. Solid colour or camouflage. Can be upgraded with plates to withstand high velocity rifles.

EOD

EOD armour is designed to counter both blast and fragmentation. Armour is typically full body, while still enabling the user mobility and full use of hands.

All armour types follow established NIJ Standards of protection. The levels are classified as follows:

NIJ Level I: Small Calibres, such as .22 Long Rifle and .38 Full Metal Jacket (FMJ)

NIJ Level II-A: Low velocity handguns, such as 9mm and .40 Smith & Wesson

NIJ Level II: High velocity handguns, such as 9mm and .357 Magnum jacketed soft point

NIJ Level III-A: High velocity handguns, such as high velocity 9mm and .44 Magnum

NIJ Level III: High velocity rifles, up to 7.62mm NATO

NIJ Level IV: Armour Piercing, up to 7.62mm NATO AP (only with ceramic or metal plates)
