

CLOSE PROTECTION

(MARITIME: LIAISON OFFICER, ARMED & UNARMED TEAMS)

ISS Infinite Security Solutions

Infinite Security Solutions (ISS) offers comprehensive **MARITIME PROTECTION SERVICES**

No matter what type of asset your company owns or manages, whether a barge, rig, merchant vessel or super yacht, ISS will provide experienced personnel to protect the asset. Different assets require different security requirements and approaches. ISS can provide a Maritime Security Consultant in the form of an Advisor to the Master or provide a full Security Team for protection (*armed or unarmed*) **with full licenses including ISO 28007 certification**. Smaller Security Teams are also available that will work in conjunction with and as a complement to the crew.

Depending on requirements either an ISS Maritime Security Consultant or ISS Team Leader will conduct a Risk Assessment on the overall scenario. The Risk Assessment will include vessel or asset configuration, potential risk areas, speed implications, the likely time of attack and possible approaches for attackers.

An ISS Consultant or Team Leader will assess best options available to harden the vessel that is attainable in the permitted timeframe and can aid in the purchase of equipment, if required.

After completion of the Risk Assessment ISS will brief the Company / Master on the findings including all options that can be implemented and may include the hardening of the vessel or asset.

The crew will also be briefed and drilled.

ISS carries out this process in phases thereby ensuring that each area of security is covered comprehensively. ISS maintains that the crew should be confident in their individual or joint requirements and a 'no notice' exercise should be carried out to ensure responses and actions are coherent with what is required during a security threat.

On completion of the training drills and exercises the Advisor / Team will complement the vessels watch system as required; as additional eyes and ears on the bridge / bridge wings thereby giving vital visual and moral support to the crew.
